EDUCATION

Carnegie Mellon University BFA: Industrial Design 2017

Courses Include:

Human Experience in Design
Computing for Creative Practices
Design Thinking
Meaning of Form
How Things Work
How People Work

EXPERIENCE

Intel PRC | Design Intern

Beijing, CN | June 2014 - August 2014

Designed new product video, internal presentations, promotional images, and visual representations of company data

Carnegie Mellon Telefund | Fundraiser

Pittsburgh, PA | October 2014 - Present

Called alumni and parents to ask for donations on behalf of CMU while fostering good feelings for the university

Merit Badge University | Volunteer

Pittsburgh, PA | March 2014

Taught art and art history to Boy Scouts

Yang Yi Guzheng Academy | Teacher

West-windsor, NJ | September 2010 - August 2013

Taught the Chinese musical instrument Guzheng to children and adult students

SKILLS

Solidworks Digital Prototyping
Basic: Processing, HTML, CSS
Adobe Photoshop
Adobe Illustrator
Multiple 3D Lab tools
Storyboarding
Design Research
Experience Design
Interface Design
Photography
Microsoft Office
Mandarin

PROJECTS

Gym Redesign

Researched the pros and cons of the Skibo gym experience and redesigned the gym to improve the work out experience for Skibo users. Final redesign included a poster, new signage, new gym layout, and improvements to the equipment.

Water Usage Awareness

Designed an interactive shower where users "built" their own showers out of water to realize the large amounts of water they used.

Fire Extinguisher

Designed an environment appropriate fire extinguisher for a modern dental office. Explored intuitive product use, detailed design implications in form, and empathetic form to design an extinguisher and user experience.

Roto Form Vessel

Given a plant, a stone, and stick, I designed a vessel that served as a cohesive environment for the items by incorporating elements from the items themselves.
